Heard on The Street

A Scotchman was strolling along the quay one day when his dog stopped beside a basketful of live lobsters. Instantly one of the lobsters snapped its claws on the dog's tail, and the surprised colic dashed off down the street yelping. The fishmonger for a moment was speechless with indignation, then, turning to his prospective customer, he howled: "Mon, mon, whistle to yer dog! Whistle to yer dog!"

Hoots, mon, returned the other complacently; whistle to your lobster.

The doctor smilingly entered the room where his female patient was reclining in a chair.

He murmured, I see you are looking very much better today.

Yes, doctor, the patient said, I have very carefully followed the instructions on that bottle of medicine you gave me.

Let me see now, said the doctor thoughtfully, What were they?

Keep the bottle well corked, came the reply.

Mrs. A: Shall I ask the cook for references?

Mr. A: References don't mean much. Get her to submit samples.

A father asked a son what made him lie in bed so long.

I am bored, said he, in hearing counsel every morning. Industry advises me to get up. Sloth to lie still; and so they give twenty reasons for and against. It is my duty to hear what is said on both sides, and by the time the case is over, dinner is ready.

Much has been said of the modesty and reticence of the Wright brothers of airplane fame. Thus they were able to give a clever reason for their reserve is indicated by this story:

You see, said the financial agent of the two Dayton sky fliers, the Wrights are what you might call too shy and too modest. I said so once to Wilbur and do you know what he answered? Mr. Flint paused long enough to chuckle.

Wilbur said to me, Mr. Flint, the best father and the worst flier among the birds is the parrot.

Little Betty, watching the farm hands spreading out a stack of hay to dry could contain her curiosity no longer, so she politely asked:

Is it a needle your looking for?

How can I get my husband to tell me about his business affairs? asks a wife.

Try to get him to buy a new car.

The average sportsman has little praise to expect from the gamekeeper. One day a keeper was hunting with a gentleman who invariably missed everything he aimed at. A pleasant fellow, up, the sportsman blazed away, some feathers flew, and he exclaimed in natural exaltation: I hit him that

time and no mistake.

Aye air. They will fly into it sometimes.

She (in art gallery)—So that one of those cubist paint nags. With a dreadful place Cub must be!

Jimmy, Auntie will never kiss you with a dirty face!

That's what I thought.

Once a friend of mine and agreed that it would be helpful to each of us to tell the other all our faults.

How did it work?

We haven't spoken for five years.

This new dog we have at the house for a pet is just like one of the family.

Which one?

Johnny had been the guest of honor at a party the day before and his friend Paul was regarding him enviously.

How was it? Have a good time?

he asked.

Did it was the emphatic answer I ain't hungry yet.

Rastus, what's an altar?

That's prying you wig at a prayer meeting what you wasn't, in order to show dat yo' wasn't of the crap game what yo' was.

A Scottish minister was on his usual visiting rounds when he came across one of his friends.

And how has the world been treating you Jock? asked the minister.

Very seldom, replied Jock sadly.

Amateur Gardener.—The neighbors children ruin everything I plant.

Friend: Try corn. That's a husky plant.

Hash you! Sam. What yo' allus complainin' of? You all lose yo' job. You just betta keep quiet if yo' know what side yo' bread's buttered on.

ON DISPLAY TODAY THE NEW FORD V-8

The roomiest and most powerful Ford car ever built. 112 inch wheelbase, bodies are wider and nearly 12 inches longer. 75 horse power engine. Over 80 miles an hour. New all-aluminum cylinder head, giving increased power, smoothness and economy.

THE OBSERVER APPARENTLY LOVES BENNETT NIX

The Vegreville Observer carries this: We note, with warm approval, that there is a chance that the Rt. Hon. R. D. Bennett, prime minister of Canada, will be elevated to the peerage of Great Britain. Our approval is, however, predicated on the condition that if Mr. Bennett becomes lord, this or that it involves his permanent removal from public life in Canada. Elevate him to the peerage, or the gallows, it is all one to us, providing the method eliminates Mr. Bennett for keeps. We know of only one other man in all North America who, by his record is better entitled to a peerage than is Mr. Bennett. That man is Mr. Gaston Means of Washington, D. C. Anyone who has followed Mr. Gaston Means' career as a prolific promoter and a poor performer will grasp our meaning immediately.

SIR BASIL ZAHAROFF THE MUNITION MASTER

Sir Basil Zaharoff, the munition master, is reputed as being one of the sinister figures moving across the pages of history. Now he's near the end of his mortal existence. The Edmonton Journal sketches his life in these words: He took to the munitions business early in life and history shows him to have been peddling arms to Japan before 1904. A sales

of \$25,000,000 to Spain put him on his feet. Then he gained control of Vickers; he bought armament plants in almost every large country in the world, including Canada; he was part owner of the famous German Krupp. He took over the sale of Maxim's machine guns, and while Maxim sold them to the United States, Zaharoff sold them to Spain during the Spanish American war. Before 1914 his plants were manufacturing war implements as quickly as they could be made. To every country he sold. Then came the great war, the crowning achievement of his life. Millions upon millions of dollars poured into his coffers. To one country he sold his guns: to the other he loaned money—all for the purpose of killing. He apparently sided with the allies, became a bosom friend of Lloyd George, and was knighted by the king. After the war, business in armaments slumped. But Sir Basil had other irons in the fire. He bought Monte Carlo and made it pay huge dividend ends. He purchased great tracts of land where oil could be obtained. He threatened the supremacy of Rockefeller and the Standard oil Company of the United States and of Sir Henry Deterding, the oil king of Europe; he became a second P. P. Morgan. Today he sits in his magnificent Chateau de Ballinacourt, half blind, bent and gaunt, haggard and worn. But his keen brain still functions with the precision of youth. He has given away millions upon millions of francs to charity and other organizations. It is said that he is determined to make amends for all those who suffered in the war and for those who have succumbed in his gambling rooms at Monte Carlo.

—(10)— LOWER BOND RATES URGED BY COOTE

Mr. G. H. Coote, speaking in the House of Commons on Dominion of Canada bonds, said in part: I also urge that our money policy be such as to maintain as nearly as possible stable purchasing power for money which is paid in interest to the bondholder. I think that would be one of the first steps to lower interest rates in Canada. One step has already been taken by lowering interest rates on savings bank deposits. The chief factor governing interest rates in Canada, particularly on long term obligations is the rate paid on Dominion of Canada bonds. I would just like to remind the minister that our public debt, that is provincial, municipal and Dominion, now amounts to over six and a half billion dollars, which at an average rate of five per cent—I think we are paying more than that—means an annual interest charge of \$325,000,000.

Lastly, I want to suggest to the minister that the new loan should be floated at a very much lower rate of interest. I think he should fix three per cent as the rate to be paid on these bonds. I believe that rate is justified by the price level obtaining in Canada now. Whatever the government may decide as to the rate, the principle enunciated by the prime minister three or four years ago should be followed now, and banks and insurance companies, particularly insurance companies, should be compelled to invest a percentage of their reserves in such bond issues.

—(10)— SELLING CANADA IN BRITAIN

According to the Brockville Recorder and Times, the Federal Government has placed at the disposal of the High Commissioner in London a sum of \$100,000 for the purpose of promoting the marketing of Canadian articles in the United Kingdom. This is good news. While the High Commissioner has been particularly active in making known the high quality of Canadian products, his work has been rather overshadowed by vigorous and consistent advertising campaigns conducted by the Governments of other Dominions. It has been as one man pitting his energies against the resources of Government; and that is more than should be expected, even of so resourceful an individual as the present head of Canada House.

This announcement is all the more important in view of the probable disappearance of the Empire Marketing Board because of hostility on the part of the Dominions to give it financial support. Other

WHITE & GRAY
 Strathmore, Alta.

Dominion Governments have been conducting their own advertising in the Old Lane, and Canada has only their example, prompt and energetically, it recent hand caps are to be overcome in approximating this expenditure the Brockville paper says:

The sum of \$100,000 is little enough to apply to this useful work, but it will undoubtedly prove of assistance in acquainting the British people with the variety and quality of the articles which Canada has for sale in that, the greatest consuming market of the world. More than that, it will lead Canadian visitors to the Old Lane to realize that the Dominion is at least doing something in a serious way to cultivate the opportunities of the British market, which in spite of recent increases in imports from this side of the water, is still capable of absorbing even larger quantities of Canadian products.

There is but one effective plan for popularizing Canadian products in Britain. Send only the best, priced scientifically, and then advertise, and keep on advertising. Canadians returning from the Old Country report that wherever they travelled there was no escaping the advertised excellence of commodities of other parts of the Empire; naturally at the expense of less known Canadian products. The sum now reported available will be of great assistance in competing with this publicity, and there should be more when that is gone. If the market be prepared Canada can deliver the goods.

—(10)— INTER-COLLEGIATE TEAM FOR REGINA

Selection of the inter-collegiate team which will represent Alberta in the senior grain judging competition at the World Grain Congress at Regina in July, has been made, and the members are: E. E. Swindler, Edmonton; R. M. Putnam, Medicine Hat; and J. L. Bolton of Lacombe. The Junior Grain Club team announced some time ago are: Wm. Douglas, Lacombe; Paul Billwiler, Hanna; Gordon Ballhorn, Wetaskiwin, and George Parrock, Lacombe. The intermediate team are: D. McPadden, Lacombe; H. Cripps, Oliver; Wayne Strong, Chatham, and Wallace Watson, Provost.

"Good-Bye Uncle Jack"

Said Vera Fleck, (left) and Lyette Teppaz, as they shook hands with Captain R. O. Latta, and left the Canadian Pacific liner Empress of Britain at Father Point, Quebec, to make an aeroplane dash to Montreal on their way to Chicago where they are contestants in the selection of a "Queen" of the Century of Progress Exposition. No matter what the contest results Vera and Lyette will carry memory of a thrilling first voyage home with them. The Empress of Britain, one of the world's fastest liners, broke two records for them, and a combination of fast ship, fast plane and fast train gave the two pretty girls the distinction of making the fastest voyage from London and Paris to Chicago ever recorded. They travelled so fast all the way that Miss Teppaz, who landed in Paris, Friday, May 18, found herself breakfasting less than six days later in Chicago, May 25. Miss Fleck's record was from breakfast to breakfast. Canadian Pacific officials arranged every detail of their entire journey which, with the exception of two hours and fifty minutes in the air, used the facilities of that organization.

COAL PRODUCTION

The total coal production for the province for the month of April was 245,757 tons, a decrease of 7,575 tons from the same month of 1932.

THE M. D. OF BOW VALLEY NOTICE TO RESIDENTS

Due to the prevalence of Grass hoppers in various parts of the Municipality residents are reminded that it is their duty to use poison bait in controlling and destroying these pests. The district has opened a bait mixing station at the U. G. G. elevator at Carleton and residents who have infestation of Grasshoppers can obtain bait at this station by simply going there and getting it. No charge is made for the bait supplied to residents of the Municipality.

Residents are also reminded that it is their duty to use control measures in keeping down the number of gonbers.

ESTATE OF SIR J. A. McDONALD TO BE DISTRIBUTED SOON

Ottawa: The estate of Sir John A. McDonald, first prime minister of Canada held in trust since his death in June, 1891 is about to be wound up and the assets distributed. One Mr. W. C. Carbon is named to the heirs. Of these there are four, all residents of Winnipeg. They are Lady McDonald, widow of Sir Hugh John, Mrs. Mary McDonald, daughter of Sir Hugh, and her two children.

The probate proceedings are taking place at Ottawa and are being carried forward by Allan Lewis, K.C. counsel for the estate, and the Royal Trust Company.

The amount of the estate at the present time is not publicly known but it is said to reach considerable proportions. The bulk of a centuries old fortune of approximately \$1,000,000 which was built up by Sir John A. is in the hands of the executors and is being divided by the personal fortune of the great Canadian Statesman.

At the time of his death Sir John left his widow, Baroness McDonald and two children, Sir Hugh John of Winnipeg and Hon. Mary McDonald. All three are now dead. Hon. Mary died in England last January.

The sole survivors of the McDonald family, therefore are Sir Hugh John's widow and his daughter Mrs. Gainsford, and her two children.

NEW COAL RATE

A new effort to gain the Ontario coal market for Alberta, and which will be made following the announcement of the Canadian Railway Commission that an order is to be issued giving a \$5.00 per ton freight rate on the coal from Alberta points to the East.
